

Our Ethical Hacker Manifesto

Our mission is to make the world a safer place.

To fulfill our mission, all members of our ethical hacker community within TRYBER, adhere and diligently promote the following 9 points:

- 1. We are all cybersecurity professionals; we do not differentiate skin color, sexual orientation, gender, age, culture, or religion*
- 2. We condemn any criminal acts and especially, adhor any act carried out through information technology that damages dignity, freedom, image, the life of the people and organizations they belong to*
- 3. Our curiosity nourishes our work and progression*
- 4. Our perimeter of action is that of the known world and the unknown too*
- 5. Our progression is not only every year but, every day, every hour, every minute, and every second of our lives*
- 6. Our closest ally is technology*
- 7. Our knowledge is our weapon*
- 8. Our community is the team*
- 9. Our strength is our collective knowledge*
